

The Prez Sez . . .

Wednesday, August 30, 2017 8:30 AM

CCC,

Car season has winded down as fall is here. The weather looks to hold out to get some more driving in before December. Our favorite car, the Chevrolet Corvair had a good showing at the 2017 Pumpkin Run Nationals. I was told there were six Corvairs throughout the show. Don't forget the Corvair Club of Cincinnati Christmas Party is two months away. The Butler County Winter Swap Meet is Saturday Jan 20, 2018. We need to start selling spots to make sure it is a sell-out. I know the Butler County Hot Rod Association has sold multiple spots.

As most members in the club know, I have thousands of Corvair Parts for sale. Last month I purchased some storage crates to help get organized and inventory parts. The barn I am renting sent me a notice that they are raising my rent starting in November. So in November I will publish an inventory to the club. My goal is to get my inventory down so I will no longer need to rent the barn.

I purchased a 5x8 trailer so I can start delivering the larger parts, such as transaxles, engines, body parts, etc. Nobody wants to put a greasy / oily transaxle in their trunk. So just let me know what you need and I will deliver it anywhere in Butler / Hamilton County.

Times are busy at the Johnson household as I have a day job as the technology manager for a Japanese company, plus own and operate two separate companies.

Meta Technology Services - provides end-to-end IT and communications solutions that allow small to mid-sized businesses to improve operational efficiency, enable innovation, mitigate risk and reduce overall operational costs. Serving Southwest Ohio out of our Hamilton Office. www.metatechnologyservices.com

Monza Motion LLC - offers a best in class National Brand and Private Label auto parts broker, marketing and design services. We also have a retail division that sells direct to the consumer. www.monzamotion.com

When I am not working I am raising my two little boys (Aiden 2 years old and Alex 9 months old).

For 2018 I will not run for re-election of the Corvair Club of Cincinnati. I will remain a very active member and will make my usual 10 out of 12 meetings a year. Also, will commit to help write something for each and every newsletter to help Joe Vonderhaar out. Everyone will see my family and I at the Corvair events. Don't think I am going away.

I love the Corvair Club of Cincinnati, but with the large growth of my business I will need to go back to become a regular member. Personally I think Jeff Sandor and Rob Ernst would be a great combo in 2018.

Michael LeVeque represented Corvairs well at the SCCA 2017 Runoffs. Unfortunately, 8 minutes into the race his Indy Custom Machine/LeVair Perform Corvair was taken out of contention by a Mazda RX7.
